Project Title: Poker Website

I want to build a website that introduces people to my favorite game: poker! I want it to function as a historical, cultural, and instructional resource, for newcomers and experienced players alike.

- Intro: General overview of poker, its role in casinos and gambling, etc.
- History: the historical origin of poker, tracing its development, periods of popularity, and modern use etc.
- Instructions: a how-to guide explaining the rules, combinations, and significance of better strategies
- Players: famous players and individuals who have defined the game
- Tournaments: national tournaments that track player development and game development, monte carlo, triton, etc.
- Other options: poker slang (tilt, check in the dark, nuts, etc.), relation to casinos, organizations (poker stars, etc.)
- Sources

-
